Medical Gases – a deep breath

EIGA Members have been supplying medical gases for over 100 years. EIGA has always focussed on the quality and efficacy of medical gas products and services to enhance patient safety, as well as the development of good practices and standards to protect our workers and users in the supply and handling of medical gases and homecare services.

EIGA also provides regulatory agencies and healthcare providers with advice on the safe manufacture, supply, handling and administration of medical gases. In recent years regulations and standards have developed into a complex landscape for EIGA members to navigate.

Objectives

This Seminar is intended to continue the sharing of good practices and initiatives. It will provide an overview of regulations and how they impact the production and supply of gases. The Seminar will look at what the future holds for patient safety and for medical gases in the healthcare industry.

Through the Seminar we intend to provide guidance and perspective on these aspects of medical gases safety and on how people should be communicating and managing these issues. We will also be presenting proven tools and techniques which managers and employees will be motivated to take back to their companies and implement with conviction.

The Seminar will be structured around plenary sessions on:

- Safety (patient, product, personnel) and the basics of medical gases;
- Medical gases;
- The future for medical gases;
- Homecare;
- Medical devices;
- Hot topics and breaking news for medical gases.

Who should attend?

Personnel working in healthcare functions in our industry, including operations, engineering, supply chain, quality and regulatory functions. Both those recently recruited to the industry and those with more experience should benefit from attendance.

Senior managers from our industry including general management, technical, supply chain, sales and marketing functions.

Regulatory and government officers. Representatives of industry and patient associations, equipment manufacturers and suppliers, hospitals, notified bodies, customers and business partners.

EIGA Seminars always act as an important forum for the exchange of knowledge between EIGA members and industry stakeholders such that best practices in safety and the environment can be widely implemented.

Programme at a Glance

Wednesday 30th January 2019

08:00 – 08:45	Registration and Welcome Coffee
08:45 – 10:10	Session 1: Introduction
10:10 – 10:40	Break
10:40 – 12:05	Session 2: Homecare
12:05 – 13:35	Networking Lunch
13:35 – 15:40	Session 3: Medical Gases
15:40 – 16:10	Break
16:10 – 17:40	Session 4: The Future for Medical Gases
19:30 – 22:00	Seminar Dinner

Thursday 31st January 2019

08:00 – 08:30	Welcome coffee
08:30 – 10:10	Session 5: Medical Devices
10:10 – 10:40	Break
10:10 – 12:15	Session 6: Hot Topics, Breaking News
12:15 – 13:45	Networking Lunch
13:45 – 15:40	Session 7: Hot Topics, Breaking News
15:40	Seminar Close

Detailed Programme

Wednesday 30th January 2019

08:00	Registration and Welcome Coffee		
Session 1	Introduction		<i>Moderator: Markus Zacharias, The Linde Group</i>
08:45		Opening	Philippe Cornille, General Secretary
08:47		Introduction to the Seminar Programme	Markus Zacharias, The Linde Group Chairman Seminar Organising Committee
08:50	1.0	Opening Remarks	Ivo Bols, EIGA President
09:00	1.1	Safety, Operational and Regulatory Challenges in Healthcare	Stefania Mariani, MGC Chair
09:20	1.2	How the Regulation of Medical Gases Ensures Patient Safety	Urmi Prasad Richardson, The Linde Group
09:35	1.3	Regulatory Status of the Medical Gases and Health Authorities' Marketing Authorisation Process	Anne-Sophie Fabre, Air Liquide Santé International
10:00		Q&A	
10:10	Coffee Break		
Session 2	Homecare		<i>Moderator: Sofia Marcos Falcão, Praxair Europe</i>
10:40	2.1	Good Homecare Practice – Handle with Care	Harmen van Dijk, Westfalen Medical
11:00	2.2	Safe Supply of Homecare Medical Oxygen Systems	Cátia Milene Esteves, Praxair Portugal Gases
11:15	2.3	How Oxygen Therapy Contributes to My Father's Quality of Life	Martine Labadie, Air Liquide Healthcare
11:35	2.4	Improving the Travel Experience for Patients Who Require Oxygen	Isabel Saraiva, European Lung Foundation President
11:55		Q&A	
12:05	Lunch		
Session 3	Medical Gases		<i>Moderator: Paolo Naccini, SOL Group</i>
13:35	3.1	Management of Medicinal Gases in Hospitals	Judith Ros, Air Products
14:00	3.2	Inspections of Medicinal Gases	Dr Ronald Bauer, Austrian Federal Office for Safety in Healthcare
14:25	3.3	Working with the Authorities	David Cockburn, Formerly, European Medicines Agency
14:50	3.4	Typical Pharmacovigilance Cases	Dr Viviana Hoischen, Air Products
15:10	3.5	Off-Label Use of Medicinal Gases	Dr Tobias Dietrich, Messer Holding
15:30		Q&A	
15:40	Coffee Break		
Session 4	The Future for Medical Gases		<i>Moderator: Giorgio Bissolotti, SIAD</i>
16:10	4.1	Digital Technologies Enable Major Steps in Personalized Medicine	Prof. Olaf Dössel, Karlsruhe Institute of Technology (KIT)
16:40	4.2	Digital Health – Lost in Legal and Regulatory Challenges?	Dr Marc Oeben, NOVACOS Rechtsanwälte
17:05	4.3	Compounding Gaseous Drug Products	Christoph Hilker, Westfalen Gas Schweiz
17:30		Q&A	
17:40	End of Day 1		

Thursday 31st January 2019

08:00		Welcome Coffee		
Session 5		Medical Devices		<i>Moderator: Tobias Burkard, Messer Group</i>
08:30	5.1	Medical Device Regulation - Overview of New Regulation and Impact Assessment	Nils Beyer, The Linde Group	
08:50	5.2	Medical Device Regulation - Action Required! Selected Examples	Bernd Rieker, The Linde Group	
09:10	5.3	Vigilance: PMS and PSUR	Dr Viviana Hoischen, Air Products	
09:30	5.4	New Medical Device Regulation from the Perspective of a Notified Body	Dr Bassil Akra, TÜV SÜD	
10:00		Q&A		
10:10		Coffee Break		
Session 6		Hot Topics, Breaking News		<i>Moderator: Eva Grosse Maestrup, Westfalen</i>
10:40	6.1	Data Integrity	Paulo Pereira, Air Products	
10:55	6.2	Old Wine in New Wineskins: Validation of Computerized Systems Realizes Its Potential Regarding Data Integrity	Oliver Herrmann, Q-FINITY	
11:25	6.3	New Horizons of High Flow Oxygen therapy in Adults: from Hospital to Home	Dr Salvador Díaz Lobato MD PhD, Hospital Universitario Ramón y Cajal	
11:45	6.4	Medical Gas Environment in the US and Canada	Richard Craig, Compressed Gas Association	
12:05		Q&A		
12:15		Lunch		
Session 7		Hot Topics, Breaking News		<i>Moderator: Glenn Van Ingelgem, Air Liquide</i>
13:45	7.1	Cryopreservation: New Regulatory Topics	Salvatore Velardi, Rivoira Pharma	
14:05	7.2	ICH Q3D – Elemental Impurities – an EIGA approach	Martin Schöfnagl, Messer Group	
14:25	7.3	Numerical Simulation of Nitrous Oxide Occupational Exposure for Healthcare Professionals	Georges Caillibotte, Air Liquide Santé International	
14:45	7.4	VIPR Drug Device Combination	Jan Strybol, Air Products	
15:00	7.5	Introducing New Medical Gas Cylinder Packages	Mike Ralph, Medical Gas Association Chair Peter Henrys, The Linde Group	
15:20		Q&A		
15:30		Closing Review	Markus Zacharias, The Linde Group Chairman Seminar Organising Committee	
15:40		End of Day 2		

For further information about the Seminar Programme, please contact the EIGA Brussels office or one of the following Seminar Organising Committee Members:

Markus Zacharias	The Linde Group (Chair)	Philippe Cornille	EIGA
Giorgio Bissolotti	SIAD	Carole Krengel	EIGA
Tobias Burkard	Messer Group	Isabelle Rondeau	EIGA
Eva Grosse Maestrup	Westfalen	Patricia Vanderplasschen	EIGA
Sofia Marcos Falcao	Praxair Europe	Els Vandererven	EIGA
Paolo Naccini Valli	SOL Group	Andy Webb	EIGA
Milan Patel	Air Products		
Jan Strybol	Air Products		
Glenn Van Ingelgem	Air Liquide
